[or contractor] worked or resided during the past 7 years." The same requirements are required for participants self-directing services as indicated within each service qualification.

The DDA-licensed and approved provider must complete this requirement for all of the provider's employees and contractors hired to provide direct care. If this background check identifies a criminal history that "indicate[s] behavior potentially harmful" to individuals receiving services, then the provider is prohibited from employing or contracting with the individual. See Code of Maryland Regulations (COMAR) 10.22.02.11, Maryland Annotated Code Health-General Article § 19-1901 et seq., and COMAR Title 12, Subtitle 15.

Background screening is required for volunteers who:

- (1) Are recruited as part of an agency's formal volunteer program; and
- (2) Spend time alone with participants.

Criminal background checks are not required for people who interact with or assist individuals as a friend or natural support, by providing assistance with shopping, transportation, recreation, home maintenance and beautification etc.

### **Draft Regulations**

Subject to amendment as part of the process to promulgate regulations, the DDA will require that persons selected by individuals with a developmental disability to provide waiver services successfully pass a criminal background check, as detailed herein. A "person" includes an individual, receiver, trustee, guardian, personal representative, fiduciary, or representative of any kind and any partnership, firm, association, corporation, or other entity as set forth in MD. CODE ANN., HEALTH-GEN. § 1-101.

The following individuals must complete a criminal background check:

- 1. All employees and Board members of a community-based provider providing services under the Traditional Services delivery model;
- 2. All contractors and volunteers of a community-based provider providing services under the Traditional Services delivery model who will have direct contact with at least one individual with a developmental disability; and
- 3. All employees and staff of a Participant providing services under the Self-Directed Services delivery model.

Direct contact is defined as physically present with, or within an immediate distance (such as the same room) of, the individual with a developmental disability.

The following persons will be responsible for ensuring the criminal background check takes place upon hire of each individual who is required to complete a criminal background check:

- 1. Under the Traditional Services delivery model, the community-based provider; and
- 2. Under the Self-Directed Services delivery model, the Fiscal Management Services provider.

Each DDA-licensed and DDA-certified community-based provider (including the Fiscal Management Services provider) must provide a copy of the criminal background check of its Executive Director and its Board Members as part of its initial and renewal application to the Department for licensure or certification. Otherwise, the DDA-licensed or DDA-certified

State:	
Effective Date	

community-based provider and Fiscal Management Services provider are responsible for complying with these requirements for each individual hired.

The criminal background check to be conducted must:

- 1. Be performed by Criminal Justice Information Services in the Maryland Department of Public Safety and Correctional Services; or
- 2. Be performed by a private agency, meeting certain criteria regarding, their qualifications, the scope of the background check, and whether alerts will be required.

Please note the DDA is in discussion regarding criteria for appropriate private agency (ies) requirement(s) for performing criminal background checks, which will be promulgated in the updated regulations.

An individual will have successfully passed their criminal background check if they has been not been convicted, received probation before judgment, or entered a plea of nolo contendere to a felony, crime of moral turpitude (including fraud), theft, financial crimes against a vulnerable adult, or abuse or neglect of a child or vulnerable adult and such final judgment was not entered 10 years ago or less from the date of the individual's application.

If an alert later notifies the community-based provider or Fiscal Management Services provider that the individual has received subsequently a final judgment that does not meet the requirements to successfully pass a criminal background check, then: (1) they must be removed immediately from direct contact with an individual with a developmental disability; and (2) their employment, contract, or Board membership must be terminated promptly.

If an individual knowingly submits false information for their criminal background check, then they will be disqualified automatically from serving an individual with a developmental disability and will not be permitted to apply again for a period of five years from the date of the initial application containing the false information.

Participants enrolled in DDA's Self-Directed Services delivery model may request that DDA waive these criminal background check requirements. DDA may permit waiver of the criminal background check requirements *only if* the criminal background check indicates behavior that would not be potentially harmful to an individual with a developmental disability.

#### **Child Protective Services Background Clearance**

The State also maintains a Centralized Confidential Database that contains information about child abuse and neglect investigations conducted by the Maryland State Local Departments of Social Services. Staff engaging in one-to-one interactions with children under the age of 18 must have a Child Protective Services Background Clearance.

## **State Oversight of Compliance with These Requirements**

The DDA, OLTSS, and OHCQ review providers' records for completion of criminal background checks, in accordance with these requirements, during surveys, site visits, and investigations. Annually the DDA will review Fiscal Management Services providers' records for required background checks of staff working for participants enrolled in the Self-Directed Services Delivery Model, described in Appendix E.

ii If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

## b. Methods for Remediation/Fixing Individual Problems

*i* Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Individuals self-directing their services may request assistance from the Advocacy Specialist or DDA Self-Direction lead staff. DDA staff will document encounters.

DDA's Provider Relations staff provides technical assistance and support on an on-going basis to licensed and certified providers and will address specific remediation issues. Based on the identified issues, a variety of remediation strategies may be used including conference call, letter, in person meeting, and training. These remediation efforts will be documented in the provider's file.

## **Appendix C-5: Home and Community-Based Settings**

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

- 1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.
- 2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing,

Note instructions at Module 1, Attachment #2, <u>HCB Settings Waiver Transition Plan</u> for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.

The Family Supports Waiver services include various support services. New services including Housing Supports Services has been added to support community integration, engagement, and independence. The State incorporated the federal home and community-based setting requirements into the Annotated Code of Maryland Regulations (COMAR) 10.09.36.03-1 Conditions for Participation — Home and Community-Based Settings which notes, "Effective January 1, 2018, to be enrolled as a provider of services authorized under §§1915(c) or 1915(i) of the Social Security Act, the provider shall comply with the provisions of §§D—F of this regulation and 42 CFR 441.301(c)(4)." and includes specific provider requirements. (Reference: <a href="http://www.dsd.state.md.us/comar/comarhtml/10/10.09.36.03-1.htm">http://www.dsd.state.md.us/comar/comarhtml/10/10.09.36.03-1.htm</a>)

The Family Supports Waiver definitions have been written to comply with the HCB Settings requirements. Waiver services are provided in the individual's own home or the community which is available for the public to use and visit and therefore presumed to meet the HCB Settings requirement.

The only exception is Respite Care Services that can be provided in the child's home, a community setting, a Youth Camp certified by DHMH, or a site licensed by the Developmental Disabilities Administration.

There are no residential or day habilitation services provided.

All new providers must comply with the HCB settings requirement prior to enrollment as a new waiver service provider and ongoing. As part of the application process to become a Medicaid provider under the Community Supports Waiver, the DDA will review and assess for compliance with specific staff, service, and license requirements. Prior to final approval and Medicaid provider enrollment, the DDA will conduct site visits for site based services to confirm compliance with the HCB settings requirements.

As per Annotated Code of Maryland Regulations (COMAR) 10.09.36.03-1 Conditions for Participation — Home and Community-Based Settings, any modification of the rights or conditions under §\$D and E of this regulation shall be supported by a specific assessed need and justified in the person-centered services plan in accordance with 42 CFR 441.301(c)(2)(xiii).

Ongoing assessment is part of the annual person-centered service planning and provider performance reviews. Coordinators of Community Services assess participants' service setting for compliance with HCBS settings requirements. DDA staff assess provider performance and ongoing compliance.
