* Data sources: Maryland's NEDSS and PRISM databases. Data is current as of Jan 9, 2018. These are active databases and counts may vary slightly over time, as well as differ slightly from counts published by the Centers for Disease Control and Prevention (CDC). HIV/AIDS data are not included here but available at <http://phpa.health.maryland.gov/OIDEOR/CHSE/Pages/statistics.aspx>.

The case status classifications (confirmed, probable or suspect) included in these totals are specific to the condition, and depend in part on the CDC case definitions for surveillance, where those exist (see <http://www.cdc.gov/nndss/conditions/>) and the CDC publication criteria (available http://wonder.cdc.gov/nndss/documents/2016_NNDSS_Publication_Criteria.pdf). There may be additional "suspect" cases for some conditions that are not included in the counts appearing here.
