

Celebrating Survivorship In Maryland

Presented By

Gail Amalia Katz

Vice President, Patient Resource Navigation

American Cancer Society, South Atlantic Division

Maryland Cancer Plan on Survivorship:

Goal: Enhance the quality of life for all cancer survivors in Maryland.

The Plan identifies the four major challenges for cancer survivors as:

- Access to information and resources
- Financial and legal issues
- Psychological issues
- Long-term survivorship

Leading By Example

The American Cancer Society will enhance the quality of life of cancer survivors, by providing the best information and referral services available.

By combining both national and local resources, the American Cancer Society has set a nationwide leadership goal to be **THE** trusted source of quality cancer information:

- At the time of diagnosis
- During treatment
- When survivors resume their non-treatment lives
- At the end of life.

National Resources

Available 24 Hours a Day, 7 Days a week:

- National Cancer Information Call Center 1.800.ACS.2345
- www.cancer.org
- Cancer Survivors Network

National Resources
