JAI Medical Systems Case Management & Disease Management Programs

Case Management, Complex Case Management, and Disease Management programs are available for Jai Medical Systems' members, who have serious medical conditions or have complex and/or special needs. Our Case Managers can also assist with care coordination. Currently, there are Disease Management Programs for Hypertension and Asthma. These Disease Management programs provide our members with additional information and support while helping them control their high blood pressure and asthma.

Case Management and Complex Case Management services are also available to our members. Case Management and Complex Case Management services provide support and guidance to those members that need or would like extra assistance with their health care.

How do I refer a member for Case Management and Disease Management Programs?

If you feel that one of our members may benefit from Case Management, Complex Case Management or Disease Management services, please contact our Utilization Management team at 1-888-JAI-1999.

Below are some examples of medical conditions or circumstances where Case Management, Complex Case Management, or Disease Management may be helpful:
