OFFICE OF THE INSPECTOR GENERAL (OIG)

DHMH POLICY 01.03.01

Effective Date: January 12, 2012

CORPORATE COMPLIANCE PROGRAM

I. EXECUTIVE SUMMARY

The Department of Health and Mental Hygiene (DHMH, the Department) is committed to being proactive in its efforts to follow the guidelines of the U.S. Department of Health and Human Services-Office of the Inspector General (DHHS-OIG) for developing a departmental compliance program designed to prevent and detect violations of the law and to establish standards that promote full compliance with the applicable federal and state laws. This policy defines the roles and purpose of the DHMH Corporate Compliance Program (CCP).

The Corporate Compliance Program consists of: 1) The Compliance Officer, who reports to the DHMH Inspector General on the progress of the program and its efforts; and 2) The DHMH Corporate Compliance Committee, which assists and advises the Compliance Officer on the standards and the DHMH Code of Conduct. The Division of Corporate Compliance of the DHMH Office of the Inspector General is responsible for administering this program. The CCP exemplifies the Department's commitment to implementation of the Governor's 1994 Executive Order on Internal Audits that was in response to the efforts of the DHHS-OIG to prevent and detect fraud, waste and abuse.

II. BACKGROUND

The purpose of a voluntary Corporate Compliance Program is to promote the prevention of fraud, abuse and waste in rendering health care services and still provide quality care to patients. The DHHS-OIG has issued several guidelines to encourage providers to develop voluntary Corporate Compliance Programs. These guidelines detail recommendations for Medicare, Medicaid and other health care program providers to develop effective internal controls that promote adherence to applicable federal and state laws and program requirements.

In an effort to ensure compliance with this policy, the Department is supplementing initiatives established by the Governor's 1994 Executive Order on Internal Audits by developing a Corporate Compliance Program and has established the DHMH Division of Corporate Compliance to oversee and implement this program. The Chief of the Division will serve as the Compliance Officer, and carry out the functions of the position, i.e. providing education and training programs for employees, responding to inquiries from any employee regarding appropriate billing, documentation, coding and business practices and investigating any allegations of possible impropriety.

This version of DHMH 01.03.01 dated updates the appearance of the policy and replaces the earlier versions dated September 25, 2006 and August 17, 2001. However, the substantive content remains unchanged.

DHMH CORPORATE COMPLIANCE PROGRAM

CODE OF CONDUCT

I. INTRODUCTION

The Department of Health and Mental Hygiene (DHMH) is committed to maintaining the highest level of professional and ethical standards in delivering quality health care services to the citizens of Maryland. These standards can only be achieved and sustained through the actions and conduct of all DHMH personnel. DHMH employees have an obligation to familiarize themselves with, and adhere to, all applicable federal and state laws and regulations that apply to the delivery and reimbursement of services provided by DHMH for Medicare and Medicaid.

As part of this effort, DHMH has joined with other State and federal agencies in developing initiatives to prevent potential fraud, abuse and waste in programs funded by Medicare and Medicaid. One specific initiative adopted by the U. S. Department of Health and Human Services is the creation of voluntary "corporate compliance" programs. DHMH has established the DHMH Corporate Compliance Program and this Code of Conduct to provide guidance to employees on their responsibilities and to help them determine appropriate conduct in performing their duties. The Compliance Officer will oversee and monitor the implementation of the DHMH Corporate Compliance Program. To assist the Compliance Officer, the Corporate Compliance Committee has been created with representatives from the Attorney General's Office, and various DHMH administrations responsible for providing health care services to citizens including reimbursements and billing.

While all DHMH employees are obligated to follow this Code, management will provide access to the information, training and resources needed by staff to comply with applicable federal and state laws, including ethics laws, regulations, and policies. All employees must help create a culture within DHMH that promotes the highest standards of ethics and compliance, and which encourages everyone in DHMH to address concerns, when they arise, consistent with this Code. Where any question or uncertainty regarding such requirements exists, each affected employee is required to seek guidance from his or her supervisor or the DHMH Compliance Officer.

Each DHMH employee is obligated to conduct himself/herself in a manner to assure the maintenance of these standards. DHMH prohibits any employee or agent from knowingly presenting any claim for payment or approval that is inaccurate, false, fictitious or fraudulent. Compliance with these standards will be an important factor in evaluating an employee's performance. Compliance oversight will also be an important element in the evaluation of DHMH supervisory employees responsible for the provision of services or for preparation of bills to seek reimbursement from Medicare, Medicaid and/or other federal programs. Employees who fail to comply with this Code of Conduct will be subject to additional training, direct supervision and/or appropriate disciplinary action.

Personal Obligation to Report

DHMH is committed to compliance with all relevant laws and regulations. Each employee has an individual responsibility to report any activity by any DHMH employee, subcontractor, or vendor that the employee has reason to believe violates applicable laws, rules, regulations, or this Code. All violations or suspected violations shall be reported immediately to the Compliance Officer with concurrent notification to the employee's supervisor or to the Compliance Officer alone, if appropriate. Employees who, in good faith, report a possible violation may not be subjected to retaliation. Employees who make a report that they know to be false or misleading will be subject to appropriate disciplinary action.

Each DHMH employee who is directly or indirectly involved in providing services and/or billing Medicare and Medicaid, has an individual responsibility to comply with DHMH Medicare and Medicaid policies and procedures as they apply. (See Section IV for a list of potential risk areas).

Internal Investigations of Reports

DHHM is committed to investigating all reported concerns promptly and confidentially to the extent possible. The Compliance Officer will coordinate investigations with the Attorney General's Office and shall immediately report any findings of a violation to the Office of the Inspector General along with recommended corrective actions. All DHHM employees shall cooperate with investigation efforts.

Corrective Action

When an internal investigation finds a violation, it is the policy of DHHM to initiate appropriate corrective action, including, but not limited to, making prompt restitution of any overpayment amounts and implementing systemic changes to prevent a similar violation from recurring in the future.

Disciplinary Action

Any DHHM employee who violates the Code may be subject to appropriate disciplinary action and/or retraining, to prevent recurrence of the violation. In determining the level of disciplinary action to be taken, management will consider the amount of training provided to the involved employee(s). The discipline imposed will depend on the nature, severity and frequency of the violation and may result in any of the permitted disciplinary actions as provided by law.

Internal Audit and other Monitoring

DHHM is committed to the aggressive monitoring of compliance with its policies. Much of this monitoring effort will be conducted through scheduled and unannounced internal audits of issues that may involve actual or potential violations.

Acknowledgment Process

Following the training, employees will be required to sign an acknowledgment statement confirming they have received this Code of Conduct and understand that it represents mandatory policies of DHHM. Employees will be required to sign this acknowledgment as a condition of employment. Adherence to DHHM's Code of Conduct and participation in related activities and training will be considered in decisions regarding hiring, promotion, evaluation and continuation of employment.
