INITIAL AND RENEWAL APPLICATION FOR PODIATRIST PERMIT TO DISPENSE PRESCRIPTION DRUGS

INSTRUCTIONS

	INSTRUCTIONS Review the FAQs to determine whether you need a dispensing permit. Complete this form, read and initial each letter after the certification; and sign and date the application. If prescriptions will be dispensed in more than one location, a copy of the dispensing permit is required at each location. Permit is valid for 5 years from the date of issue. Submit the completed, signed form with a check or money order for \$1,050.00* payable to the Maryland State Board of Podiatric Medical Examiners. Mail to above address.			NOTE : Continuing Education Requirement for Permit Renewal. A drug dispensing permit is valid for 5 years. Before you may renew the permit you must provide documentation of completion of at least 10 hours of continuing education relating to the preparing and dispensing of prescription drugs offered by the Accreditation Council for Pharmacy Education (ACPE), or as approved by the Secretary of the Department of Health. No other continuing education sponsors will be accepted. A renewal permit will not be issued if these requirements are not met. See D.i. through D.v. below for your specific continuing education requirement, depending upon the year you are required to renew your permit.

Please read and initial the space on the left of each lettered paragraph as your acknowledgment and agreement.

- A. I am thoroughly familiar with and will comply with all statutes and regulations which govern a podiatrist's dispensing of prescription drugs.
- B. I understand that I must follow the requirements regarding dispensing, labeling, record keeping, and patient notifications in order to receive and maintain a permit to dispense. Failure to comply with these requirements or other conditions included in the laws and regulations is a violation of the Podiatry Practice Act and its regulations.
- C. I will annually report to the Board whether I have personally prepared and dispensed prescription drugs within the previous year. I understand that I will be contacted by the Board either by e-mail or by letter to provide this information to the Board and I will provide the requested information in an expedited manner. I further understand that my failure to respond to Board inquiries regarding my dispensing of prescription drugs in an expedited manner is a violation of the Podiatry Practice Act and its regulations.
- D. (Initial only if you are seeking renewal; Skip this question if you are seeking an initial permit). With the exceptions below, I have completed ten continuing education (CE) hours over a 5 year period relating to the preparing and dispensing of prescription drugs, offered by the Accreditation Council for Pharmacy Education (ACPE) or as approved by the Secretary of the Department of Health. Documentation of continuing education credits is attached to this application. The required continuing education hours will be phased in as follows:
 - i. For permits that expire in 2014, the podiatrist shall complete two continuing education hours;
 - ii. For permits that expire in 2015, the podiatrist shall complete four continuing education hours;
 - iii. For permits that expire in 2016, the podiatrist shall complete six continuing education hours;
 - iv. For permits that expire in 2017, the podiatrist shall complete eight continuing education hours;
 - v. For permits that expire in 2018, the podiatrist shall complete ten continuing education hours.

I understand that I must submit documentation of completed continuing education with my renewal application

- E. I do not have a substantial financial interest in a pharmacy.
- F. I do not direct patients to a single pharmacist or pharmacy.
- G. I personally prepare and dispense prescription drugs.
- H. I ensure that signs are conspicuously posted at each dispensing location regarding the process for resolving incorrectly filled prescriptions or which includes written information regarding the process with each prescription dispensed.
- I. I will allow the Office of Provider Engagement and Regulation to enter and inspect the dispensing office(s) at all reasonable hours.

Senate Bill 603 (Chapter 267, Laws of Maryland 2012) Health Care Practitioners – Licensed Dentists, Physicians, and Podiatrists – Personally Preparing and Dispensing Prescription Drugs and Devices

FREQUENTLY ASKED QUESTIONS

1. Under what circumstances is a podiatrist required to hold a drug dispensing permit?

Licensed podiatrists are required to obtain a drug dispensing permit if they dispense prescription drugs to patients under their direct care who have informed the podiatrist that a pharmacy is not conveniently available. A dispensing permit is not required if the podiatrist dispenses "samples" or a "starter dosage." A starter dosage is defined as an amount, sufficient to begin therapy, of short duration of 72 hours or less.

The podiatrist shall maintain documentation that should include a single form in each patient's chart for each patient to whom prescription drugs are dispensed. At a minimum, the form shall: (1) Indicate the reason, as stated by the patient, that a pharmacy is not conveniently available to that patient; (2) Include a statement signed by the patient indicating that the patient understands that the determination that a pharmacy is not conveniently available is made solely by the patient; and (3) Be signed and dated by the patient before dispensing prescription drugs to the patient for the first time.

2. Are all podiatrists licensed in Maryland required to hold a dispensing permit? No. There is no

requirement that every podiatrist hold a drug dispensing permit. A podiatrist may dispense "samples" without a permit. In addition, a podiatrist may dispense, without a permit and at no charge to patients, a "starter dosage" which is defined as an amount, sufficient to begin therapy, of short duration of 72 hours or less. Samples and starter dosages may be dispensed without regard to whether a pharmacy is "conveniently available" to the patient.

3. What is the difference between administering and dispensing?

Administering is treating the patient in the podiatrist's office with the prescription drug. Dispensing is giving the prescription drug to the patient to take home. As noted above, giving samples and starter doses to patients to take home does not require a dispensing permit. Administering a prescription drug in the podiatrist's office does not require a drug dispensing permit.

4. Is a dispensing permit required for the dispensing practitioner for each location where prescription drugs are dispensed?

No. However, if prescriptions will be dispensed in more than one location, a copy of the dispensing permit is required to be displayed at each location where prescription drugs are dispensed.

5. What is the definition of public interest?

Public interest means the dispensing of prescription drugs by a licensee to a patient when a pharmacy is not conveniently available to the patient.

6. Are there certain items patients receive by prescription that do not require a dispensing permit? No. If the drug is dispensed so that the patient can take the drug home, and if it can only be obtained by

prescription, it falls within the purview of the drug dispensing laws. The permit exceptions such as "samples" and "starter dosages" are discussed above.

7. How does a podiatrist apply for a dispensing permit?

A podiatrist applies for a dispensing permit by submitting a completed application and the appropriate fee to the Podiatry Board.

8. Dispensing Requirements

The dispensing requirements are:

- A podiatrist shall submit an application to the Podiatry Board.
- A podiatrist may not dispense prescription drugs until a written permit is received from the Podiatry Board except that a written permit is not required in order to dispense starter dosages of short duration of 72 hours or less, or samples provided without charge.
- A podiatrist shall dispense prescription drugs only to the patients of the licensee.
- A podiatrist shall comply with all labeling requirements.

- A podiatrist shall record the dispensing of the prescription drug on the patient's chart.
- A podiatrist may not have a substantial financial interest in a pharmacy.
- A podiatrist shall allow the Office of Provider Engagement and Regulation to enter and inspect the licensee's office at all reasonable hours.
- A podiatrist shall, provide the patient with a written prescription except for starter dosages of short duration of 72 hours of less, or samples provided without charge.
- A podiatrist shall maintain a separate file for Schedule II prescriptions. All other prescriptions shall be kept: (1) In another file; and (2) For 5 years.
- A podiatrist shall dispense prescription drugs to a patient only when a pharmacy is not conveniently available to the patient. The decision whether a pharmacy is conveniently available shall be made by the patient based upon factors to be determined solely at the discretion of the patient.
- A podiatrist shall display prominently a sign which informs the patient that prescription drugs can be purchased from the permit holder only if the patient determines that a pharmacy is not conveniently available to the patient.
- The sign must also describe the process for resolving incorrectly filed prescriptions, unless this information is provided in writing with each prescription.

9. Will I be required to meet the new continuing education requirement in order to renew my dispensing permit when my current permit expires?

Yes. Under the new law podiatrists are required to complete 10 continuing education hours over a 5- year period relating to the preparing and dispensing of prescription drugs as a condition of permit renewal. The classes must be offered by the Accreditation Council for Pharmacy Education (ACPE), or as approved by the Secretary of the Department of Health. No other continuing education sponsors will be accepted. A renewal permit will not be issued if these requirements are not met. See the continuing education schedule under D.i. through D.v. above to determine which specific continuing education requirements depending upon when you are scheduled to renew your drug dispensing permit.

10. What happens if a licensee fails to comply with the dispensing laws and regulations?

A licensee who fails to comply with the requirements governing dispensing of prescription drugs may be subject to disciplinary action.

11. What is the fee for a dispensing Permit?

On July 1, 2013, a new law went into effect. Senate Bill 603, Chapter 267, Laws of Maryland 2012 requires the Board to charge a fee to approximate, but not to exceed the documented costs to the Division of Drug Control for inspections of dispensing permit holders.

If you have any questions you are urged to contact Ms. Elizabeth Kohlhepp, Licensing Coordinator at 410-764- 4785, or Eva Schwartz at 410-764-4784. The Board's website is <u>https://health.maryland.gov/mbpme/</u>
